PRS-K COMPACTOR PRESS

PRS MAKİNA®
POWER RECYCLING SYSTEMS
GERİ DÖNÜŞÜM SİSTEMLERİ

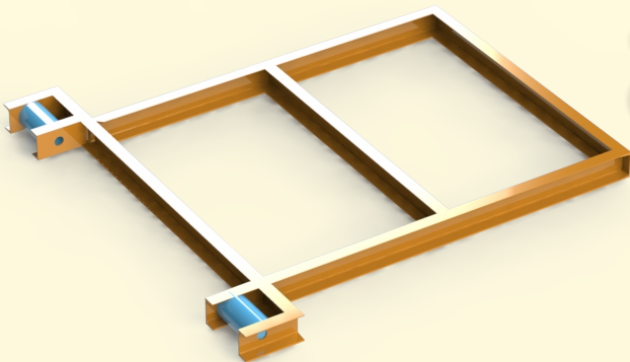

Compactor Press Machines

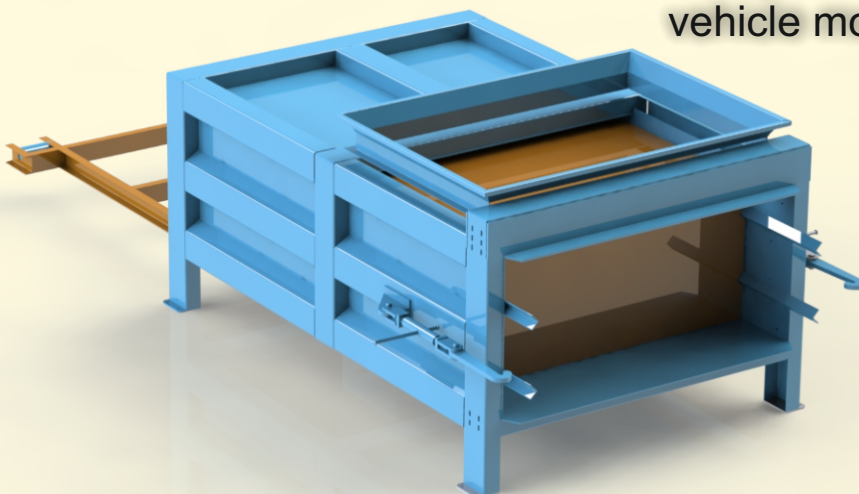

Compactor press machines are used to compress high volumes of unsorted, unsorted mixed municipal or industrial waste into a container. These containers are then picked up and shipped by the waste collector.

Before the garbage is shipped by a waste collection company, you can use compactors to reduce the volume of garbage thanks to compression.

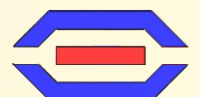

It can be produced in different capacities according to the special requirements of your business. They are used with a single staff and automatically.

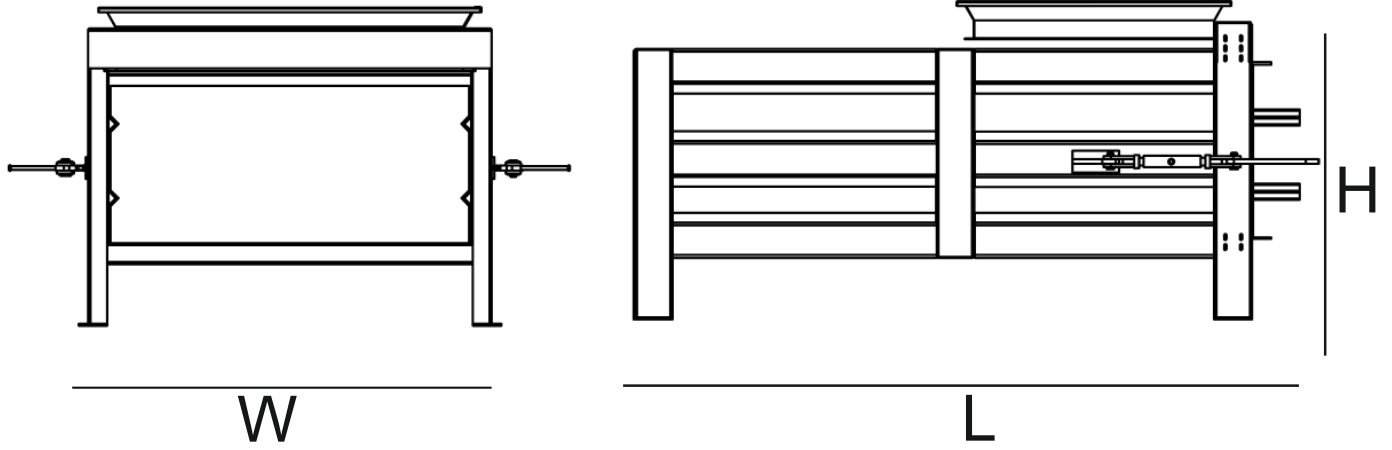

You can buy optionally
Compactor press transport vehicle.

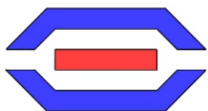

Compactor press transport
vehicle mounted state.

MODEL	UNIT OF MEASUREMENT	PRS-K40	PRS-K50
FEEDING HATCH	mm.	1800x1000	1800x2000
PRESSURE FORCE	Ton	40	50
RATE OF ENGINE	kW.	15	22
CYCLE TIME	s	30	40
MACHINE SIZE	mm.	LxWxH 2930x2700x1350	LxWxH 3250X2100x1560
WEIGHT	Ton	5	7
